

VINITH S

FULL STACK DEVELOPER - .NET / Angular

vinith1805@gmail.com | +91 8015633350 | [LinkedIn](#)

Professional Summary

Full Stack Developer with 3 years of experience specializing in .NET, Angular, and SQL with hands-on experience building scalable, secure, and high-performance web applications. Skilled in designing RESTful APIs, creating responsive UI components and database optimization. Proficient in using modern AI-assisted tools to improve development speed, code quality, and problem-solving efficiency while maintaining clean architecture and best practices.

Technical Skills

- **Backend:** .NET Core, C#, Web API, EF Core
- **Frontend:** Angular, TypeScript, HTML5, CSS, Bootstrap and Angular Material
- **Database:** SQL Server, MongoDB
- **Cloud:** Azure Services
- **Tools:** Git, Postman, Swagger
- **AI Tools:** AI-driven development assistance (ChatGPT, Copilot)

Professional Experience

Software Engineer – Synergech Technologies (July 2024 – November 2025)

- Developed and enhanced enterprise applications using .NET Core Web API, Angular19, and SQL Server.
- Led the modernization of the Lloyd's Rater (Insurance Domain) application by transforming the legacy Bubble UI and Azure Logic Apps flow into a Scalable Angular and .NET Core architecture.
- Contributed to the PNC Banking Project developing secure APIs using .NET Core EF.
- Designed and implemented clean, modular RESTful APIs to handle Insurance Quote generation Workflows.
- Built responsive UI screens using Angular Material, multi-step forms, data binding and dynamic API integrations.
- Integrated multiple third-party vendor APIs and maintained consistent request-response flows using centralized service layers.
- Ensure optimal performance through structured logging, error handling and clean architecture practices.

- Worked on unit testing, improved code coverage using xUnit/NUnit and validating API behaviour.
- Monitored and supported CI/CD pipelines using Bitbucket, Jenkins and Red Hat OpenShift(OCP) for seamless deployments.

Software Engineer – Orion Innovation (April 2022 – March 2024)

- Contributed to the development and maintenance of the Onboarding Application, working across Angular and .NET.
- Performed bug fixing, UI enhancements and minor feature updates in Angular components. Also supported backend development by resolving issues in .NET Core Web API.
- Collaborated with senior developers to understand requirements and deliver clean, tested fixes.
- Worked in Agile environment, participating daily stand-ups, sprint planning and code review activities.

Intern – Orion Innovation (Feb 2022 – March 2022)

- Trained as Full Stack Developer in .NET, Angular and SQL

Education

B.Tech – Information Technology, Dr N.G.P Institute of Technology (2018 - 2022)
